FIREARMS TRAINING

## Steel Target Overview

Orion Firearms Training's ISO 9001 compliant steel reactive targets have been proved and tested by having 1,000's of rounds from varying calibres shot at them in all weather conditions.

These targets are extremely robust and have been made to exacting standards allowing for calibres such as .338 and .50 BMG to be fired at them time and time again.

The targets are cable of handling all modern day ball ammunition, and are compliant with:

- **RHA** (Rolled Homogeneous Armour)
- **ABRO 500** (Higher Abrasion resistant steel plate with hardness of 500 HBW)
- **Use on JSP 403**, volume 2 design, construction and maintenance of small arms, infantry weapons systems and 40mm weapons system ranges

British forces, both regular and special forces are now using our steel reactive targets on a more regular basis. The signature and fall of shot recognition is second to none.

Snipers, marksmen and professional shooters alike understand the importance of "knowing precisely where their fall of shot lands"...our targets fulfill every shooters requirements.

*Figure 11 target with head and vitals kill zones for precision rifle shooting. Also available in hostage format with swinging plate on the shoulder of Fig 11.*

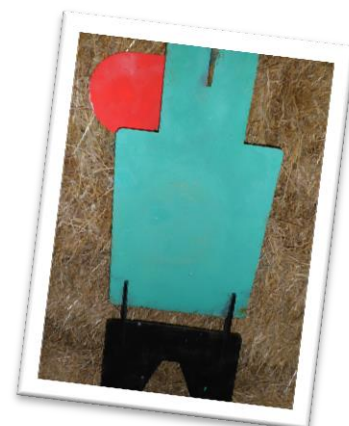

## Sniper reactive falling plate Target

This sniper target delivers a highly visible and sound signature when hit. The plate will fall to a horizontal position when struck with precision and return to its standing position thereafter.

## .338 & .50 BMG Targets

Orion has a clear understanding of the modern day sniper and marksman's requirements. As such all our 15mm targets are capable of withstanding the harshest of tests by the heavier and more damaging calibres as well as the standard 5.56 and 7.62 rounds.

250mm diameter hanging disc target

Target	Size	Spec	Price
Hanging Disc	250 mm diameter	500ABRO - 10mm thickness	£ 35.00
Hanging Disc	450 mm diameter	500ABRO - 10mm thickness	£125.00
Square plate	300mm diameter	500ABRO - 15mm thickness	£ 85.00
Figure 11		500ABRO - 6mm thickness	£120.00
Figure 11		500ABRO - 10mm thickness	£160.00
Figure 11 - 2 kill zones		500ABRO - 10mm thickness	£410.00
Figure 11 - hostage		500ABRO - 10mm thickness	£350.00
Figure 11 - .50BMG		500ABRO - 15mm thickness	£240.00
Sniper - falling plate	125 mm diameter	500ABRO - 15mm thickness	£340.00
<b>Bases</b>			
.338 / .50 BMG Base		500ABRO - 15mm thickness	£160.00
Standard Base		500ABRO - 10mm thickness	£115.00
